### PUTTING IT OVER

The Armistice Day celebration is rapidly budding into full bloom. The "boys" are putting the thing over.  $\lambda$ steady stream of votes came into the ballot box today--and growing interest comes with every hour.

The celebration started off slowly. It came at the heels of the Harvest Festival when everyone was a little jaded and ready to rest. Some cold water was thrown. Did it (AP).—The Court of Appeals docdaunt these young troubadours of the New Day? It did not! Let today: They took off their coats and buckled down the harderand over it went.

Now comes the city administration with the assurance that the Armistice Day celebration will have the wholehearted co-operation of mayor and other city officials. This it to rehearted co-operation of mayor and other city officials. This scott vs. Commonwealth: Trunis unqualified support, and the unqualified support is coming late; Jackson vs. Commonwealth: and submit. to the Legion from every angle. The Armistice Day pro- [Trimble; agreement filed on civil] gram is going strong with everyone. It will go still stronger as the interest continues to grow. The Legion is doing its stuff, and is receiving ample backing.

It's a good sign when a community can get together on a thing like this. It is community spirit as it should be.

### IF LA FOLLÉTTE SHOULD WIN

Even among the super-heated radicals, there are doubtless few who expect Senator La Follette to be elected. But it is interesting to speculate on what would happen, in the event of the success of the "Progressive" movement.

That movement is made up of the most diverse elements imaginable. A dozen schools of political and economic thought are represented in it. All would clamor for immediate recognition, and insist that their particular nostrums be forthwith administered to the country with a government spoon. Not since Babel has there been anything like it would be. As a circus it would have everything but the price of admission would break the taxpayers.

There would be Socialists who want to divide up everything and otherwise hasten the millennium; red flag followers who want the modern Russian system of government | Cracken; appellee filed motion with installed here; I. W. W.'s clamoring for one big union, opposed by the Gomper's crowd of organized labor; followers of Henry George who want all taxes assessed against land and farmers who would not stand for that; the foes of the Constitution, and minorities who feel safer under the protection of that bill of rights. There would be more nuts, term, 1925, with privileges to the lighting in the years sationt. cranks, wheels and bolts than could be used in any machine.

# Did You Ever Stop to Think

73 THAT advertising takes a most important part in selfing. It is the connecting link between business and the pub-

THAT persistent advertising indicates to the public that merchandise or service advertised is exactly as rep-

z THAT aggressiveness in advertising does much to break many people of their habit of sending their money away from home.

THAT everywhere and in every way, persistent, truthful advertising makes real friends for business because it tells of honest quality that will make good.

THAT truthful advertising is the telling of the best values possible with a service that will satisfy.

THAT local retail concerns can only sell to as many people as they can reach by local newspaper advertising. That is the limit of their territory.

THAT most of the people are trained and educated to buy from concerns who invite their trade through the printed page.

THAT nothing is more fatal to a business than to do without advertising.

PUBLIC CONFIDENCE in a business is built by persistent, truthful advertising and is increased and retained by the same method. 工工工 企业 工工工工

### Costly Jewel Used For Paper Weight

LONDON, Oct. 23, (AP) Declared to be the largest supphire in the world, a jewel, once used as a common paperweight, has been brought from India and is now be ing offerel for exhibition in Loudon. The jewel is worth more than than \$35,000, weights 916 caratand is in the form of a plucked flower with a short stem. It was acquired by a government official in India who, ignorant of its value, used it as a paper weight in ene of the guard buts on the In-

dian frontier.

The discovery of the jewel wa made by the director of Indian Re-venue when he visited the outpost Its history has been traced to the 12th century when one or the Bell's rkings, while on a pilgrimage to Cevion was given the appoint by a Buddhist monk. During tur-reign of this king the stone be

ame the object of much verero tion and was afterwards captured by Mahk Kaffur, the great gener-al of Allandan. Later it came intthe possession of a state official hut was lost about 1875

Experts are of the opinion that the jowel vas a hair ornament of an ancient diety and there is, it is believed, a companion of he in ex-
